

RESCUE SAW CONVERSION KITS FOR UNIVERSAL APPLICATION— CUT DIFFERENT MATERIALS

- PERFECT COOLING OF THE CHAIN DUE TO OPEN DESIGN
- MUCH LONGER LIFETIME
- TOOL-LESS REMOVEABLE DEPTH GAUGE FOR FULL LENGTH CUTTING

To rescue persons, to reach the source of fire and to create ventilation openings rescue saws are essential.

The heat-resistant titanium guide bar with cobalt inserts and the tearproof Raptor carbide chain have been developed for the toughest operations, the rescue chainsaw cuts different materials such as insulating material, light metal plates, light bricking, timber formwork and wooden beams with nails and screws, tar board roofing cardboard, plastic materials, acrylic plastic, multi-layer glass etc. The tool-less depth

gauge allows a precise control of the cutting depth. It can be removed in seconds without tools for full length cutting. The carbide chain is very durable and has a very high cutting force.

The rescue power cutter has a special VentMaster diamond disk. This disk cuts steel, metal, brick, concrete, fiberglass, wood and glass without loss of cutting depth during the life of the disk. The adjustable depth gauge allows precise and controlled cuts up to the maximum cutting depth.

CONVERSION KIT

A rescue saw in only 5 minutes

VENTMASTER™ MULTI-CUT

TOOL-LESS DEPTH GAUGE

The tool-less depth gauge allows a precise control of the cutting depth from 1 cm to 15 cm (20 cm). It can be removed in seconds without tools for full length cutting. Due to the open design the chain is better cooled for a much longer lifetime.

COBALT GUIDE BAR

Features COBALT alloy inserts at the wear points. This alloy is extremely hard with excellent wear, galling, and impact resistance. It will retain these properties at very high operating temperatures.

RAPTOR CARBIDE CHAIN

Features an “open dual raker” design to protect the carbide cutters and for an effective cooling of the chain – for a higher operating time.

The conversion kit consists of a guide bar, the depth gauge (tool-less), a muffler deflector guard, a sprocket and the special chain. Optional: Full-wrap handle.

	Multi-Cut H372XP-40	Multi-Cut H372XP-50	Multi-Cut H576XP-40	Multi-Cut H576XP-50
Power Head	Husqvarna 372XP	Husqvarna 372XP	Husqvarna 576XP	Husqvarna 576XP
Engine power	3.9 kW (5.3 hp)	3.9 kW (5.3 hp)	4.2 kW (5.6 hp)	4.2 kW (5.6 hp)
Guide bar	40 cm	50 cm	40 cm	50 cm
Chain pitch	0.404	0.404	0.404	0.404

VENTMASTER™ CUT-OFF

VENTMASTER™ DIAMOND CUT-OFF SAW BLADES

A complete line of durable diamond cut-off saw blades for emergency and rescue applications. All blades feature industrial grade diamonds that are attached using either a vacuum brazing or laser welding process.

KIS-360 DEPTH GAUGE

Available only from VentMaster, the patented depth gauge allows for precise control of cutting depth.
